

Welsh Cockapoo Breeder Recognised as Trusted Dog Breeder of the Year

Jandaz Cockapoos, the long-established breeding business based in Cross Inn, Llandysul, Wales, has been awarded the Diamond Distinction Award 2025 for Trusted Dog Breeder of the Year.

Originally founded by Janice Griffiths and Darrel Griffiths, with Janice recognised as one of the first Cockapoo breeders in the UK, Jandaz has built a formidable reputation for ethical breeding standards and exceptional puppy care. Now owned and run by Sarah and her daughter India, the business continues to uphold the Jandaz legacy whilst serving families across the UK and internationally.

Generations of Breeding Excellence

Jandaz specialises in both American and English Cockapoo lines, maintaining high-quality bloodlines that produce healthy puppies with excellent temperaments. Their breeding programme prioritises animal welfare at every stage, with puppies kept until at least 10 weeks old to ensure appropriate socialisation and development before joining their new families.

Every puppy leaves Jandaz micro-chipped, fully vaccinated, and accompanied by complete health records—demonstrating the thoroughness that defines responsible breeding practice. This attention to detail has earned the business multiple industry recognitions, including Breeders of the Year 2022, Award of Excellence 2024, and Best Family Business 2024.

Comprehensive Support and Services

What distinguishes Jandaz within the breeding community is their commitment to ongoing client relationships. Testimonials consistently praise the communication and guidance provided throughout the adoption process and beyond, reflecting genuine care for both puppies and their new owners.

The business operates Royal Paws, a luxury pet transport service that facilitates safe puppy delivery across the UK and internationally. For overseas clients, Jandaz arranges export documentation and international delivery, extending their reach whilst maintaining the same care standards that define their local service.

India also manages professional grooming services for Jandaz dogs and client pets, adding another dimension to the comprehensive support offered to Cockapoo owners.

Building Trust Across Decades

The Trusted Dog Breeder of the Year award recognises Jandaz Cockapoos' exceptional commitment to animal welfare, ethical breeding standards, and the trust they have cultivated with families worldwide. Their multi-generational approach—carrying forward Janice Griffiths' pioneering work whilst adapting to contemporary best practices—exemplifies responsible breeding that prioritises long-term animal welfare over commercial considerations.

As demand for ethically bred companion dogs continues to grow, Jandaz Cockapoos demonstrates the standards that prospective owners should expect from reputable breeders.
